TOPTECH

Toptech Engineering Limited

IT and Engineering Systems Integrators

About Us

Toptech Engineering Limited is an indigenous engineering and ICT systems integration, services and contracting firm with vast expertise in electrical power and computer environment conditioning, IT Infrastructure and Data Center design and construction. Toptech is the clear leader in Critical Power provision and Data Centre technologies.

We have been in existence since the year 2000. Over the years, we have established our presence across the country and have expanded to the West African market. A testament to our commitment and excellence is the spread and depth of our clientele across all industries, including banking, telecommunications, manufacturing, oil & gas and the real sector.

Our growth is predicated on our unparalleled reputation for product excellence, knowledgeable staff and the industry's largest service personnel. We associate freely with leading organizations across the globe with the ultimate goal to secure the satisfaction of our valued customers.

With over 200 staff

Serving markets across West Africa

Lagos

9, Oguntona Crescent, Off Oworonshoki/Oshodi Express-way, Gbagada, Lagos

Abuja

Suite A11, Guoba Plaza, 15, Ekukinam Street, Utako, Abuja

Port Harcourt

2, Akiz Close, Opposite Int'l Academy, Off Rumunanagholo Road, Rumuodomanya, Port Harcourt

Ghana

House F530/3rd-4th Ostwe Street, South LA, Accra, Ghana

Toptech Engineering offers solutions and services for these four principal end markets:

Data Center

Power, Cooling, Structured Cabling, Monitoring, Room Preparation, Automation, Physical Security, Fire Protection, Structured Cabling, Consultancy, etc.

Buildings

Electrical and mechanical works, engine generators, solar systems, plumbing, lightning and surge protection, building automation, safety and security, etc.

ICT

Server, Storage, Networking, Virtualization, Cloud, Backup and Replication, Containerization, Security, Analytics, Managed Services, Consultancy, etc

Industry

Instrumentation and Monitoring, Automation and Control, Security Systems, Industrial Operation Software, Internet of Things (IoT), Distributed Management, etc

Our Offerings

Increase Productivity |Tighten Security | Reduce Costs| Gain visibility and Control

Data Center Consultancy

- Data Center Design
- Data Center Audit
- Data Center Certification
- Data Center Project Management
- Data Center Training

Power and IT Infrastructure

- Modern Data Center Infrastructure
- Data Center Construction
- UPS, AVR and Renewable Energy Solutions
- LV Panel Construction
- Precision Cooling Systems
- Monitoring and Management Systems
- Maintenance and Support Services

Building M & E Services

- Building Services (Mechanical and Electrical)
- Lightning Arrestors
- Telecommunication Mast Installation
- Surge Protectors
- Diesel Generators
- Automatic Transfer Switches

Connectivity and Security Solutions

- Enterprise Network Infrastructure Design, Audit, Build and Support
- Network Security
- Physical Security (CCTV, Access Control, etc.)
- Structured Cabling System (Fibre and Copper)
- Building Automation and Management Systems

Our Offerings

Data Center

We have constructed hundreds of Data Centers, of varying sizes, scope and requirements, in Nigeria and Abroad.

We help design and deploy Modular Data Centers for rapid applications and up 50% redu.ction in Total Cost of ownership

Mechanical and Electrical Services

We offer the very best in Mechanical and Electrical Engineering workmanship. We are specialists in building services, industrial projects, maintenance and related services.

Electrical Panel Construction

We building all kinds of High Voltage (HV) and Low Voltage (LV) electrical systems, including project design, isolation and distribution panels, rural electrification, automation panels, etc.

Our Offerings

Power Generation

We offer state-of-the-art power generation and transformer equipment.

Clean Power Systems

We generate, filter, clean, store and distribute power, from the mains demarcation point, to the sockets on the wall. We offer UPS systems, Inverters, VRLA and Lithium ion batteries, Rectifiers, AVRs, etc.

Renewable Energy

Renewable energy systems in a strong forte in our services portfolio.

Our Offerings

Lightning Arrestor

We are manufacturer representatives for leading Lightning Protection OEMs, and have deployed solutions for various clients

Fire Defense Systems

We have the skills to deploy and maintain varying fire defense systems, including Sprinkler System, Hose Reels System, Wet and Dry System, FM200 Fire Extinguisher Systems, etc

Maintenance and Managed Services

We offer world-class 24 x 7 x 365 support on all our installations and managed services contracts
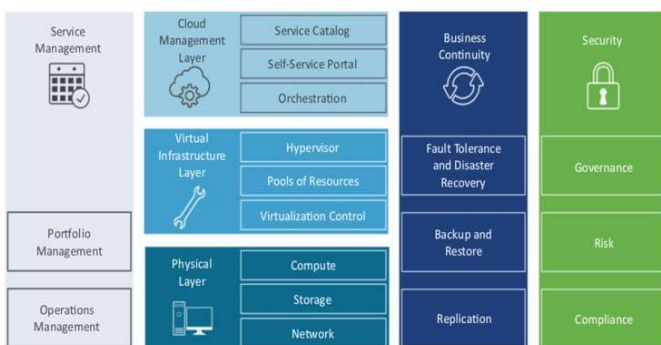

Our Offerings

Cooling

We supply required air conditioning sets in conformity to the nature, structure and design of a given building, be they window-mounted, wall-mounted, split, packaged or precision units.

Structured Cabling

Through a comprehensive Physical Layer Management services, we help businesses can gain unprecedented operation and management efficiencies across their voice and data networks.

IT Infrastructure

Our Strong IT practice helps our customers deploy the right infrastructure to run every application, powering their businesses to efficiency and profitability.
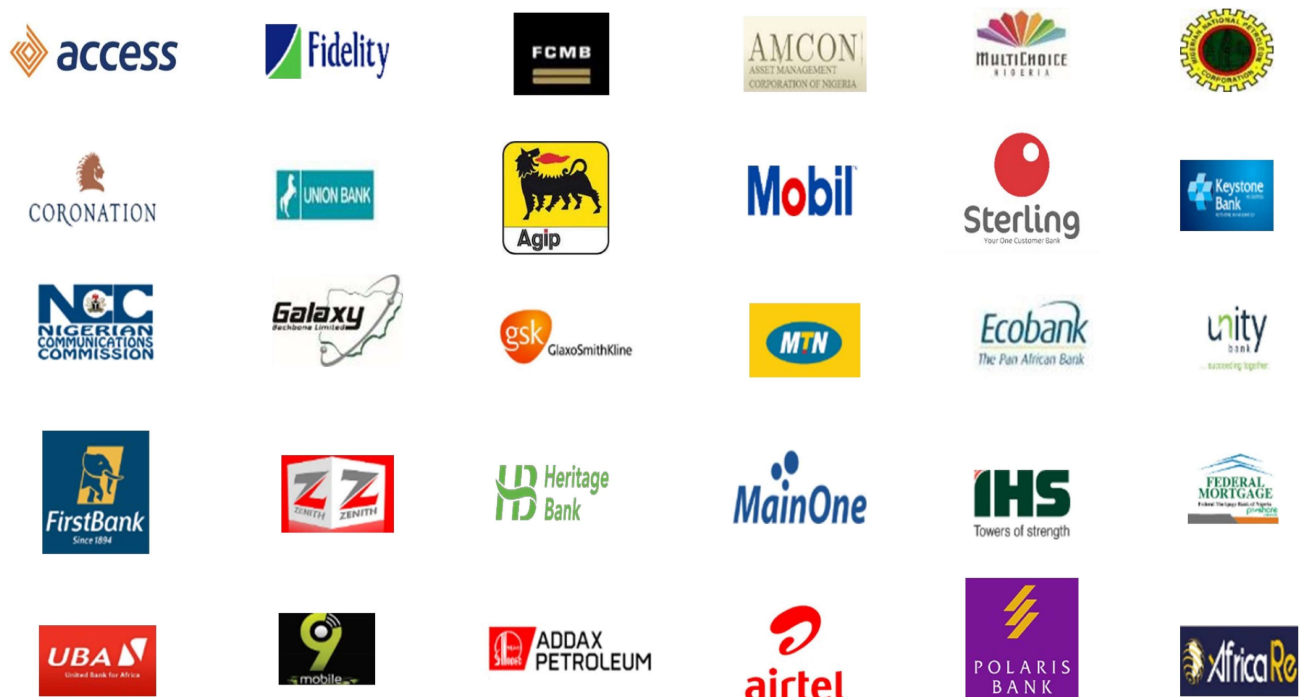

Physical Security

At TOPTECH, we expertly address physical security and operational risk issues by employing a holistic approach, encompassing all aspects of our clients' operations.

We partner with leading Original Equipment Manufacturers

CANOVATE · VERITAS · ACTi Connecting Vision · CISCO · élitech

VERTIV · PANDUIT Business Partner · HUAWEI · vmware · NTi NETWORK TECHNOLOGIES INCORPORATED

DELL EMC · IBM · KEMP TECHNOLOGIES Authorized Partner · AKCP · solarwinds AUTHORIZED PARTNER

Microsoft · hp · BOSCH Official Online Partner Bosch Professional · Schneider Electric · KEHUA TECH

COMMSCOPE · SIEMON CABLING SYSTEM · AMARON QUANTA UNINTERRUPTED LIFE · FINGERTEC Beyond Biometrics · GALLAGHER SECURITY MANAGEMENT SYSTEMS

To deliver world class services to our clients

access · Fidelity · FCMB · AMCON ASSET MANAGEMENT CORPORATION OF NIGERIA · MultiChoice NIGERIA · NNPC

CORONATION · UNION BANK · Agip · Mobil · Sterling Your One Customer Bank · Keystone Bank

NCC NIGERIAN COMMUNICATIONS COMMISSION · Galaxy Backbone Limited · gsk GlaxoSmithKline · MTN · Ecobank The Pan African Bank · unity bank

FirstBank Since 1894 · ZENITH ZENITH · Heritage Bank · MainOne · IHS Towers of strength · FEDERAL MORTGAGE

UBA United Bank for Africa · 9mobile · ADDAX PETROLEUM · airtel · POLARIS BANK · Africa Re

Customer Stories

Customer need

- Uptime Certified Tier IV Data Center
- Hot aisle containment
- Chilled water system

Achievements

- First Tier IV certified data center in West Africa

Customer Stories

Customer need

- Consultancy for data center certification by the Uptime Institute

Achievements

- Tier III Certification

Customer Stories

Customer need

- Tier III data center
- UPS backup for user areas
- UPS backup for switch areas

Achievements

- End to end integrated data center
- Efficient performance of LV power and UPS systems

Customer Stories

Customer need

- Tier III data center
- Structured cabling for data center and user areas
- Intelligent monitoring

Achievements

- End to end integrated data center
- Intelligent active and passive monitoring

Customer Stories

seplat

Customer need

- Modular Data Center with data and power redundancy
- Aluminium Partitioning, with fire retardant ceiling, walls, raised false floors and emergency exit
- Access Control Systems, CCTV Fire defence system based on FM 200 gas

---

Oando

Customer need

- Power and data structured cabling
- Aluminium Partitioning, with fire retardant ceiling, walls, raised false floors and emergency exit
- Access Control Systems, CCTV Fire defence system based on FM 200 gas

Customer Stories

Customer need

- Modern data center in Abuja and Port harcourt offices, with power, cooling, structured cabling, physical security and room aesthetics

Customer need

- Data centers at Head Office and other locations
- Inverter systems in branches nationwide

Customer need

- Engine Generators with synchronization sequencing
- Voltage regulators
- Ultramodern data center
