

Toptech Engineering Limited

Leading Digital Infrastructure Systems Integrator for West Africa

About Us

- Toptech Group has the capability to provide reliable and cutting-edge ICT and Facilities infrastructure to meet various needs. Our highly skilled staff are at clients disposal to maintain and manage deployed infrastructure.
- We have been in existence since year 2000. Over the years, we have established our presence across the country and have expanded to the West African market. A testament to our commitment and excellence is the spread and depth of our clientele across all industries, including banking, telecommunications, manufacturing, oil & gas, real estate sector. etc.

Our Mission and Vision

- Our mission is to deliver quality electromechanical solutions and build stakeholders values.

- Our vision is to be the leading provider of electromechanical maintenance support services for critical infrastructure.

Core Values

Godliness

- Our actions and principles will be guided by our belief in God.

Integrity

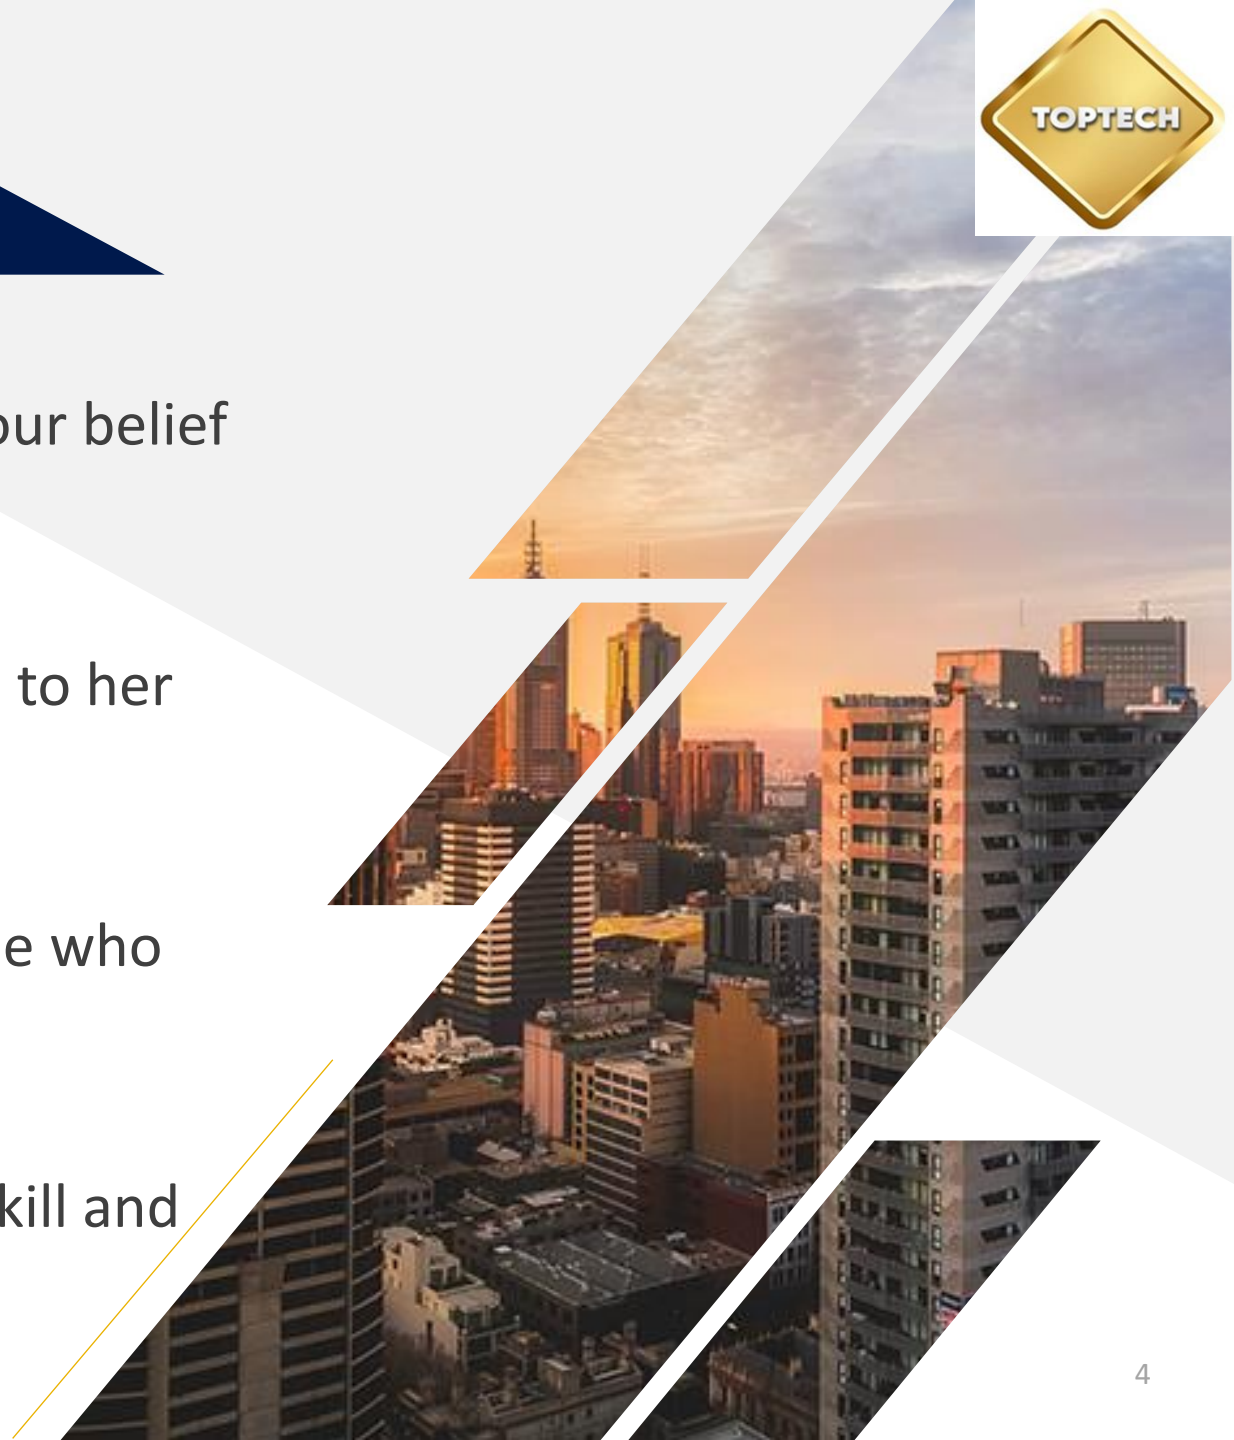

- Toptech will be honest, transparent and keep to her word in all dealings.

Courtesy

- We will be polite and considerate to all people who come in contact with us

Professionalism

- Professionalism in terms of quality of work, skill and experience shall be our watchword.

Our Services

- Industrial Power Solutions
- Precision Cooling Systems
- Enterprise IT Solutions
- Modern Data Center Infrastructure
- Data Center Systems Integration
- Managed Services
- Value Added Services

Industrial Power Solutions

Clean Power System

- **Uninterruptible Power Systems (UPS):** Elitech, Vertiv, GTEC, APC/ Schneider etc
- **Automatic Voltage Regulator (AVR)** : Elitech, Ortea, BST, Inform, etc
- **Rectifier and Inverter Systems:** (Elitech, Kehua, Vertiv, etc)
- **Batteries** (VRLA, Deep Circle, Lithium– ion)

Industrial Power Solutions

Power Distribution

- Design and Construction of Low Voltage (protection, control or monitoring) panels
- Generating sets installation **(27KVA – 5MVA)**
- Supply and installation of Distribution Transformer Substation **(100KVA – 5MVA)**
- Supply and Installation of Comfort Air Conditioners **(VRF,Window, Split or Packaged)**
- General Building Services **(Electrical Wiring)**
- Surge Suppressor Systems (**ASCO, ACCUVAR etc)**
- Lightning Protection/Arrestor Systems **(Indelec, Furse , Dein etc)**
- Chiller Installation**(Schneider, Vertiv, Hiref, etc)**

Precision Cooling Systems

- Precision Cooling is a key requirement to ensure safe working conditions for datacenters, computer rooms and other equipment that simultaneously need a high sensible heat removal and a precise temperature and humidity control.

- Toptech delivers a unique range of cabinet air coolers suitably designed to ensure performance and reliability. We offer flexible solutions at low running costs that add value to the IT facility.

Enterprise IT Solutions

Enterprise and Business Solutions

Improve performance across all key lines of business with robust, intuitive business and enterprise solutions.

Cloud

Disrupt your industry with choice of delivery and runtime, industrialized, hybrid cloud, and world-class DevOps.

Cognitive

Process, understand and apply reason to all forms of data, to extend expertise and outthink challenges.

IoT

AI-Driven solution-centric approach to IoT from the Cloud.

Data & Analytics

Transform with a full spectrum of analytics, accessible to all, delivered on a flexible platform, on premises and on cloud.

Security

Protect the business, including cloud and mobile, with an intelligent, integrated security immune system.

Services

Build and manage the enterprise IT backbone and optimize performance with IT and business services.

RPA

Automate repetitive tasks and free up time for more productive tasks through Robotic Process Automation

Modern Data Center Infrastructure

Containerized, Modular, Scalable, Prefabricated and Mobile Data Centers

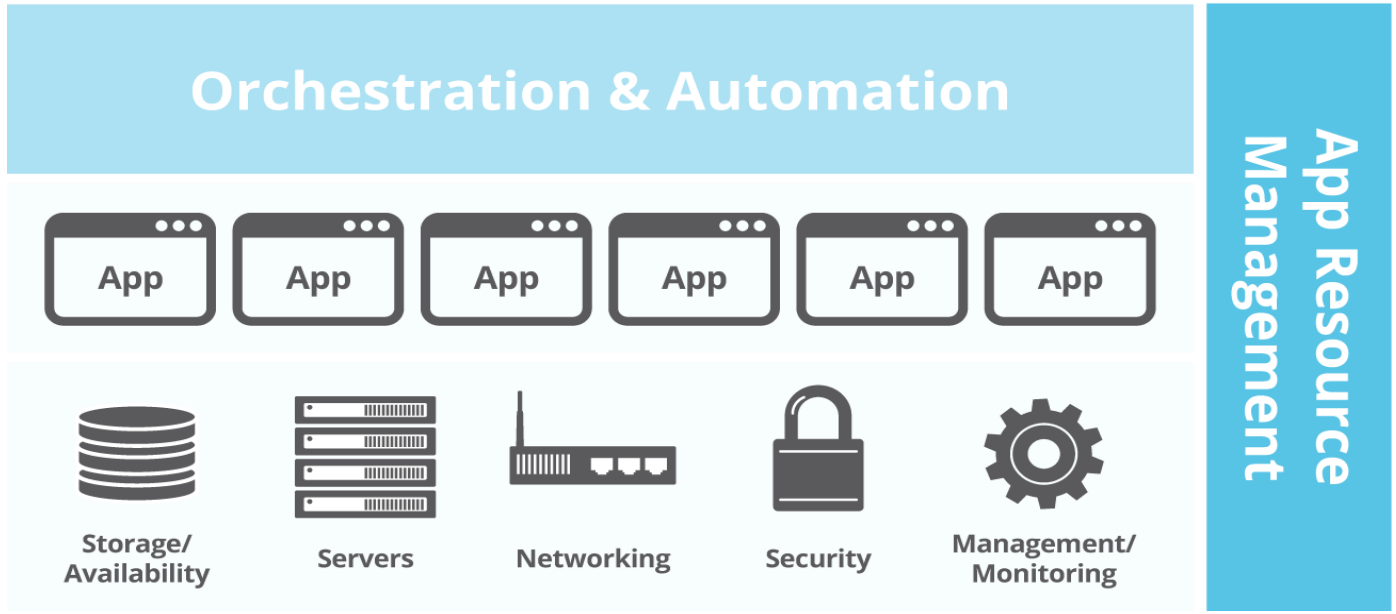

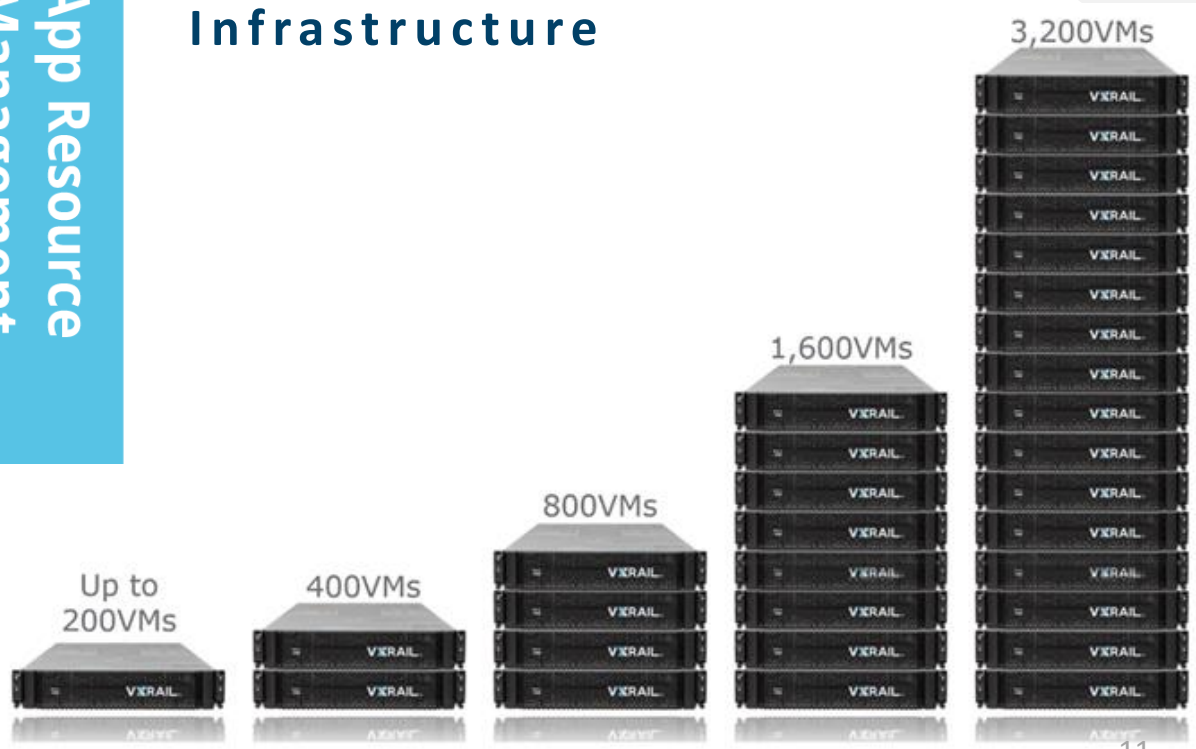

Modern Data Center Infrastructure

Software Defined Infrastructure (SDS, SDN, NFV, SD-WAN, ITaaS)

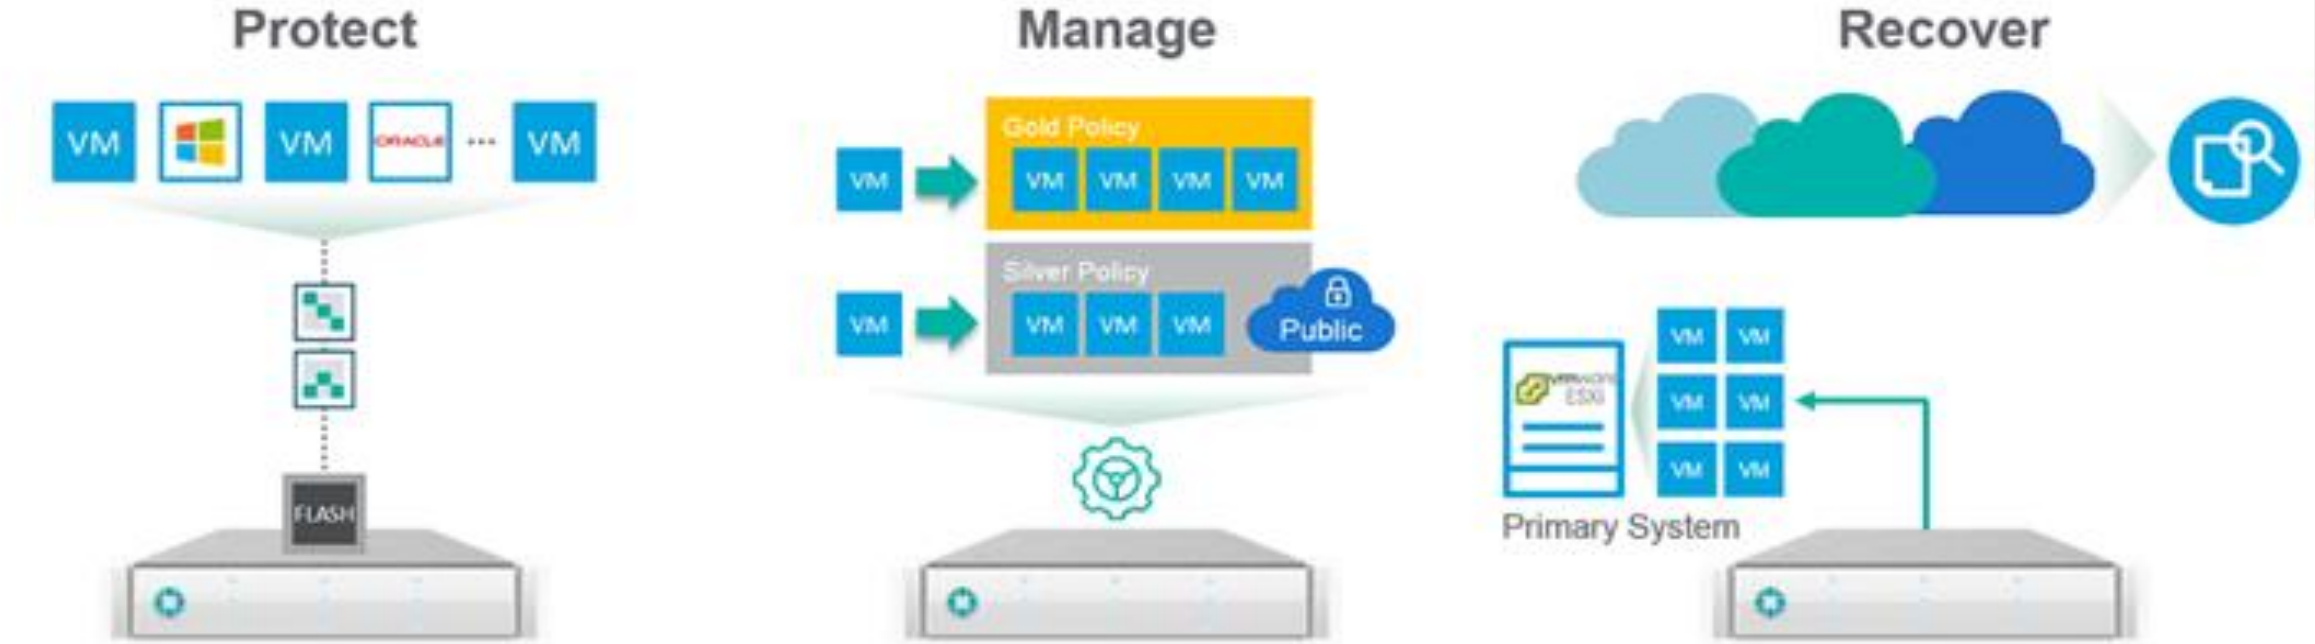

Converged/Hyperconverged Infrastructure

Modern Data Center Infrastructure

All Round Data Protection – Backup, Archive, Replication, Disaster Recovery

Auto-discover your complete infrastructure. Rapidly ingest data at flash speed. Avoid VM application stun.

Set-and-Forget SLA Policy Engine for Backup, Replication, Archival. Orchestrate data on-site and in cloud.

Instantly recover directly on Rubrik. No data rehydration required. Browse and extract data quickly from the cloud.

Data Center Systems Integration

- IT Room Preparation
- Power Distribution
- Clean Power Capacity Systems – UPS, Inverter, Stabilizer, Batteries
- Precision Cooling
- Structured Cabling System
- Physical Security Systems - Access Control, Video Surveillance, Scanners, Visitor Attendance, etc.
- Renewable Systems – Solar Power
- Fire Defense Systems
- Facility Audit and Certification
- Project Management

Managed Services

END TO END Management of Datacenter/Sites equipment with 24x7x365 onsite presence

- Support and Monitoring
- Operational Maintenance
- Preventive / Corrective maintenance
- Performance Management
- Training / Vendor support
- Manpower Outsourcing
- 247 Emergency Response
- Diesel Supply

Managed Services

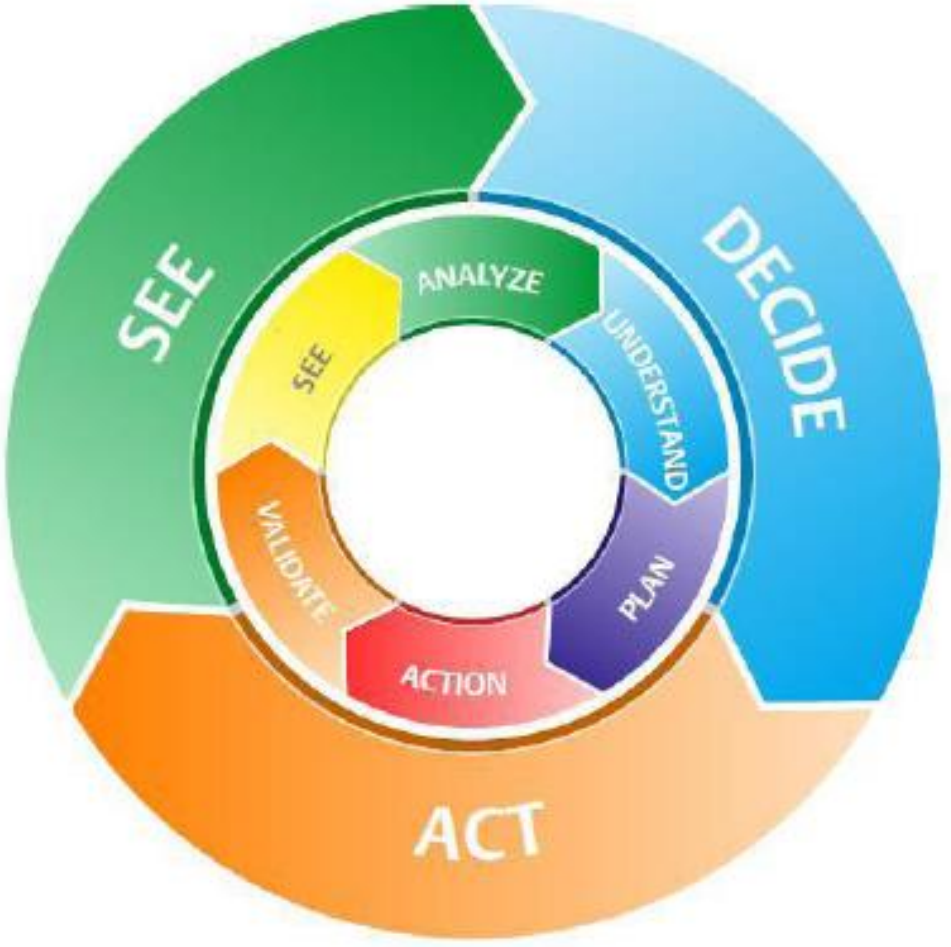

END TO END MANAGED EQUIPMENTS

- **POWER**: Generators, Uninterruptible Power Supply (UPS), Rectifiers, Power Distribution Unit (PDU), Remote Distribution Cabinet, Power Strip, Electrical Load, Solar PV - Inverters and DC Power Systems.
- **COOLING**: Precision Packaged Air Conditioning (HPAC), Chillers, HVAC, Humidifier, Temperature Monitoring System.
- **SECURITY**: Access controls, IT infrastructures, Security Cameras, Alarm/Equipment Status Monitoring System, Datacenter Environmental Monitoring System and Automatic Fire Defense System based on FM 200 gas and Novec System, Fire Hydrant Systems.
- **ACTIVE DEVICE**: Servers, Switches, Access Points, Radio, Microwave, Antenna, Fibre, and Network Links.
- **MANPOWER OUTSOURCING**: (Power, Cooling, RF, Transmission- Engr/Technician) Back End Staff, Field Maintenance Tech, Admin Staff, Commercial and Finance Staff.

Value Added Services

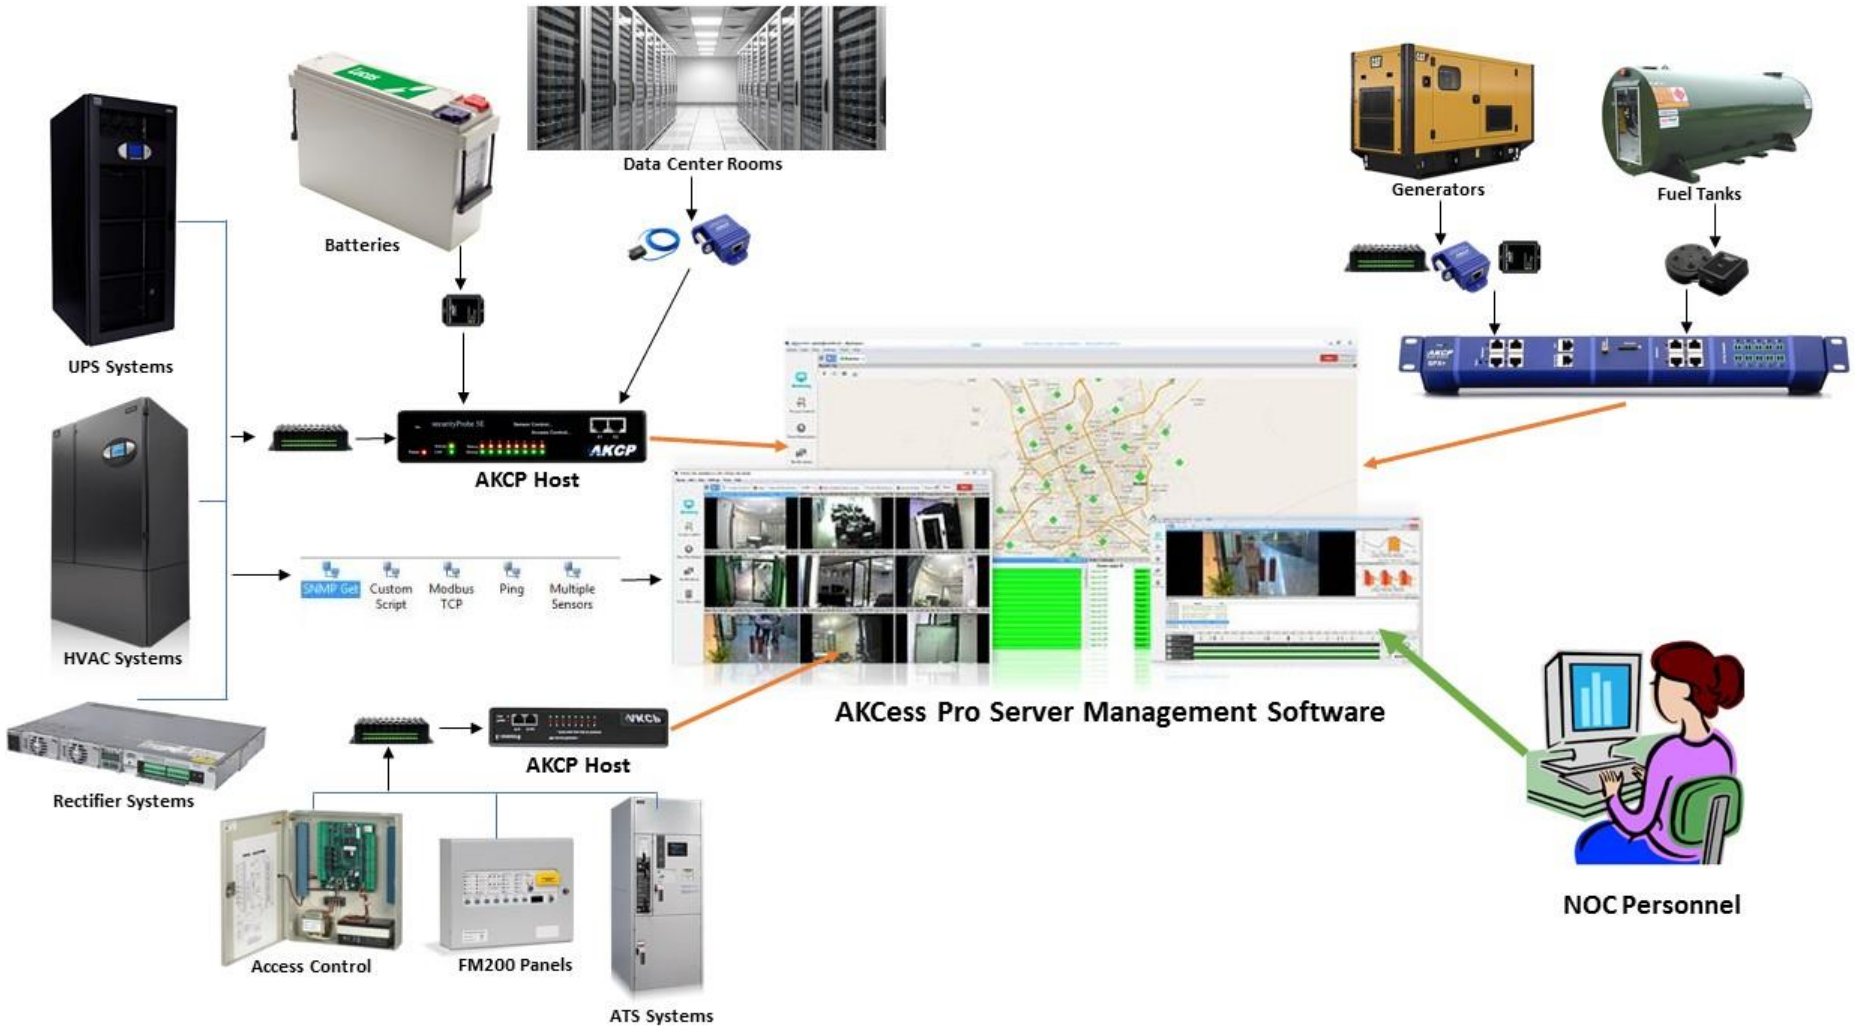

Datacenter Infrastructure Management (DCIM)

Value Added Services

Centralized Monitoring – Environment, Infrastructure, Battery and Energy
